

Timewise Action Plan for Self-Improvement

Name: Rajat Prakash Dhal

Email: 1hk22cs115@hkbk.edu.in

USN: 1hk22cs115

Primary Goals (Next 3–6 Months)

1. Crack better internships / placement offers
2. Strengthen DSA (problem-solving speed + pattern recognition)
3. Build 2–3 strong resume-level projects
4. Improve communication + technical articulation
5. Maintain physical + mental fitness

Golden Rule

Consistency > Intensity

Missing 1 day is fine.

Missing 3 consecutive days = Danger.

Weekday Plan (Monday–Friday)

Morning (Productive & Focus Mode)

8:30 – 9:15 AM

- Wake up
- Light stretching / hydration

9:30 – 11:00 AM

- Internship YouTube Live session
Focused note-taking

11:00 – 12:00 PM

- Implement what was taught
- Convert learning into execution

1:00 – 2:30 PM

- Google Meet (Internship session)
- Ask at least 1 meaningful question weekly
- Complete Tasks/Assignments Simultaneously

Afternoon Deep Work Block

3:00 – 5:00 PM

- LeetCode (1–2 quality problems)
 - 1 new problem
 - 1 revision problem
 - Maintain mistake log
 - Weekly pattern recap

Not just solve — analyze time complexity.

Evening Productivity

5:30 – 6:30 PM

- GitHub Project Update
 - Small feature
 - Bug fix
 - Refactor old code
 - Write README properly
 - Add documentation

Even 1 commit daily = huge compounding.

Night (Physical Upgrade)

7:30 – 9:00 PM

- Gym

10:30 – 11:00 PM

- Google Skills learning
 - Cloud
 - AI
 - Backend
 - DevOps basics

11:00 PM

- Complete/Review Internship Assignments
- Plan next day
- Sleep before 12:00 AM

Saturday Plan

- 2–3 hour Deep Work:
 - Resume improvement
 - LinkedIn optimization
 - Mock interview practice
 - System design basics
- Weekly project enhancement
- Weekly DSA revision session

Sunday Plan (Recovery + Strategy)

- Light LeetCode revision only
- Gym optional/light cardio
- Weekly review:
 - What improved?
 - Where did I waste time?
 - Internship progress?
 - Project progress?
- Plan next week clearly
